EXPERIENCE

Senior Full Stack Engineer

LoudlyDev Global Solutions (Remote) | 2025 - Present

Leading the engineering team for a suite of AI-powered B2B SaaS products serving over 40,000 monthly active users.

- Architected a micro-frontend migration that reduced deployment times by 70%
- Led adoption of the App Router and React Server Components, cutting client JS bundle size by 45%
- Mentored a team of 5 engineers and established code review and design system standards
- Designed the core billing and subscription infrastructure processing $2M+ ARR

Frontend Developer

Datalytics AI (Hybrid, Lahore, PK) | 2022 - 2025

Built and maintained client-facing web applications for fintech and e-commerce clients across North America and Europe.

- Shipped 12+ production applications from scratch using React and Node.js
- Reduced average page load times by 55% through code splitting and image optimization
- Implemented automated E2E testing pipelines that cut regression bugs by 80%
- Collaborated directly with clients to translate business requirements into technical specs

Frontend Developer

LEADconcept (Remote) | 2019 - 2021

Delivered custom websites and web applications for startups and small businesses across various industries.

- Completed 30+ freelance projects with a 5-star client satisfaction rating
- Specialized in pixel-perfect, high-performance marketing sites and landing pages
- Built a reusable component library that accelerated project delivery by 3x
